I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

COMMENTS: I was so excited to hear about ^{Madison} ~~Women's~~ ^{Pharmacy} ~~Health America~~ a compounding pharmacy in WI. I am in the process of trying to locate a doctor who will prescribe natural hormones through ^{the Madison Pharmacy} ~~Women's Health~~. For years I have had a strong reaction to synthetic hormones and need an alternative, one that is more individually compounded and natural. It would be a total ~~big~~ step backward for the FDA to take control of women's health. We need more compounding pharmacies such as Madison Pharmacy Associates and women need the right to be in control of their health. Our daughters deserve better than what we have had for years c1580 through the large pharmaceutical companies. Our daughters deserve better options.
